

GROUND COVER - BENCHES

Ground Cover

A tightly woven polypropylene fabric that is designed to prevent weed growth but still allow water and nutrients to pass through. Special ultra violet inhibitors give extended outdoor life. Will not rot, mildew, or become brittle in cold weather. There are green stripes every 12" for easy spacing. Great for greenhouse floors, nursery beds, and wind breakers.

NOT RECOMMENDED FOR LANDSCAPING.

Wood Bench Fabric

Wood bench fabric is made of specially selected grade "A" spruce lath 3/8" thick by 1-1/2" with a space between pickets. The 6' wide material is woven between seven--two wire cables of copper bearing galvanized wire. The 4' wide is woven between five--two wire cables. The regular spruce has a natural color and the pressure treated will have a light green tint. Both types can be dipped in red stain if requested.

PRICES ARE F.O.B. ORIGIN (factory or Montgomery)

Agra Bench by

Attain maximum flexibility and square footage efficiency with Agra Tech's bench systems. Unique rolling benches have wider aisles to move crops faster and allow better access for workers and carts.

ROLLING BENCH FEATURES:

- Anti-tip retainers prevent the rolling top from tipping over while maintaining structural integrity
- Peaked roll bars allow easier and smoother rolling by preventing build-up that can interfere with or corrode flat roll bars
- Galvanized steel frames are factory cut and punched for exact fit and ease of installation
