

DRIP IRRIGATION

Poly Pipe

A lightweight, low cost polyethylene pipe manufactured of high tensile strength polyethylene resins. Thoroughly tested and much tougher than conventional polyethylene, yet uncoils easily. This pipe is not NSF (National Safety Foundation) but contains 2% UVI ingredients. NSF is available on special order and has a working pressure of 100 psi.

ITEM #	SIZE	FT/ROLL	WT/ROLL

Xeri-Bugs™ Emitters

Xeri-Bugs™ emitters have a self-piercing barb making installation simple and easy. Pressure compensating design delivers uniform flow throughout a wide pressure range (15 to 50 psi) and outlet barb securely retains 1/4" distribution tubing. Three different flow rates are ideal for those who wish to conserve water or eliminate excessive run-off.

ITEM #	DESCRIPTION
XB05	0.5 GPH Emitter
XB10	1 GPH Emitter
XB20	2 GPH Emitter

1/4" Distribution Tubing

Fits over barbed outlet ports on all Xerigation emission devices and 1/4" transfer fittings to extend the connection to desirable discharge locations. Made from quality polyethylene or vinyl materials and available in three different lengths.

ITEM #	DESCRIPTION
RBT2550	1/4" x 50' Distribution Tubing
RBDT100	1/4" x 100' Distribution Tubing
RBDT1000	1/4" x 1000' Distribution Tubing

Xeri-Bubblers

Ideal for shrub plantings, trees, containers, and flowerbeds. Adjustable flow and radius all by turning the outer cap. Easy cleaning by unscrewing the cap from base unit.

ITEM #	DESCRIPTION
RBXS360TS	Xeri-Bubbler Stake

DRIP ACCESSORIES

1/4" Barb Transfer Fittings

Used to connect 1/4" distribution tubing in different configurations or attach 1/4" tubing to 1/2" or 3/4" tubing. Newly designed connectors have self-piercing barbs that easily puncture 1/2" or 3/4" tubing and allow quick and simple installation using the Xeriman™ Tool. Packs of 10 barbs.

ITEM #	DESCRIPTION
RBBC25PK	1/4" Drip Coupling
RBBT25PK	1/4" Drip Tee

Xeriman™ Tool

Provides fast, easy, and one-step installation of Xeri-Bug™ emitters and PC Modules directly into 1/2" or 3/4" drip tubing or Xeri-Flex Dripline. An all-in-one tool that inserts emitters, removes emitters, inserts 1/4" barbed fittings and installs goof plugs, while cutting installation and maintenance times in half.

ITEM #	RBXMT00L

Xeri-Flex Dripline

The most flexible, pressure compensating inline emitter tubing available to irrigate ground cover, dense plantings, hedge rows and more. Dual-layered tubing provides unmatched resistance to chemicals, UV damage, and algae growth. Unique material offers significantly greater flexibility, allowing tighter turns with fewer elbows for easier installation. Available in different flow rates and can be used on top of soil or under ground when used in conjunction with an air relief valve kit.

ITEM #	FLOW RATE	EMITTER SPACING	LENGTH
RBDL1861C	0.61 GPH	18 inches	100 feet
RBDL1891C	0.92 GPH	18 inches	100 feet

Insert Fittings

Made of sturdy, break-resistant plastic, with high-quality barbs that grab tubing for a secure fit. Easy to install, with push-together design installation takes only minutes that is compatible with most polyethylene tubing. Packs of 4 barbs.
