

SAFETY EQUIPMENT

Partial Face Respirator 6000 Series Reusable Model

This half face respirator is designed for comfort, convenience, and durability. It incorporates the 3M™ Bayonet Fixing System, enabling filters to simply click into place. This versatile system is suitable for many situations, including particulates and a wide variety of gases and vapors.

- Economically priced so that you can reuse or throw away without bludgeoning funds.
- Faceplate is made from soft, lightweight thermoplastic elastomer.
- Half face construction to give you ample protection without the bulkiness of a heavy full face.
- Low profile cartridge design helps maintain good field of vision.
- Comes in a complete set, while replacement cartridges are available.

Complete set consists of 6000 respirator, 1 pair of vapor cartridges, 2 pair of particulate filters, and a filter retainer. Available in medium and large sizes.

ITEM #	DESCRIPTION
ERB13536	Complete 6000 Respirator Assembly
ERB6001	Replacement Cartridge
ERB5P71	Replacement Filters

WARNING: DO NOT USE in environments that are immediately dangerous to life or health, with less than 19% oxygen, or containing oil mists. May be used with enamel or lacquer based paints. READ RESPIRATOR INSTRUCTION SHEET AND APPROVAL PLATE FOR OTHER LIMITATIONS. USE ONLY FOR RECOMMENDED HAZARDS.
