

# LANDSCAPE FABRICS

## Poly Tarp

Cover your landscape and nursery needs with a breathable tarp. Breathable tarps keep your plants cool during transportation and prevent windburn damage. A lightweight tarp made from heavy-duty polypropylene with a tan coloring. Large #4 brass grommets every three feet and a 2 3/4" reinforced edge lend added strength and durability when tying down, preventing aerodynamics from affecting the tarp drastically. Tarp is suitable for light- to medium-duty applications.

ITEM #	DESCRIPTION
DWPOLYTAR	10' x 12.6' Poly Tarp
DWPOLYT12	12.5' x 20' Poly Tarp

## Custom Tarps

Our tough truck tarps are easier to handle which means you spend less time taping and undraping your load. One person can easily handle these lightweight woven polypropylene tarps, which are up to three times lighter than traditional mesh or woven coated covers. Our tarps are made of a super tough, UV stabilized fabric, which resists rips and frays preventing small punctures from becoming larger. Durable, double stitching and brass grommets reinforce all of the tarp's edges. We can custom make to fit almost any size to fit your truck or trailer bed. Standard widths are 6', 10', and 12'. Any size tarp can be custom made, but by keeping widths in multiples of standard widths can save some money.

Contact caSSco for more details.

## Miscellaneous Landscaping Supplies

### Bungie Straps

Black rubber bungee cords are great for strapping down tools, gear, land fabrics, or any other of the hundreds of uses that these utility straps are capable of. 1" thick rounded edges with 2" S hooks secure almost any load. Available in 15", 21", and 36" lengths. Sold individually and in black color.

ITEM #	LENGTH
CRSTRP15	15"
CRSTRP21	21"
CRSTRP31	31"

### Marking Paint

This water based marking paint come in 17 oz inverted spray cans. The high solids formula provides bright, bold, visible markings that are fast drying and adhere to almost any surface. The convenient spray through cap and no-clog spray tip combines with the water-based formula to make semi permanent lines that are easily removed.

ITEM #	COLOR
CRPAINTW	White
CRPAINTR	Red
CRPAINTO	Orange

### Utility Tie Downs

A high-strength strapping made from poly with rustproof cam buckles. Sizes are color coded for easy size detection. Ideal for securing loads with a 600 lb capacity. Available in assorted sizes. Call for size availability.

### Wire Stake Marking Flags

A 2 1/2" x 3 1/2" plastic flag attached to a 15" wire stake that is great for temporary marking of water lines and irrigation markers. Available in blue, yellow, orange, green, or red colors and come in 100 flags per bundle.
