

## TESTING EQUIPMENT

These meters perform a self-check upon startup then display the remaining battery level to assure proper working condition. These testers also features a stability indicator and hold feature to prompt the user when to take the reading and freeze the display for easy and accurate recording. Supplied with pH 4.01 and 7.01 buffer solution (20 mL each) and 4 x 1.5V batteries.

					
ITEM #	DESCRIPTION	ITEM #	DESCRIPTION	ITEM #	DESCRIPTION
HAPHEP4	pHep 4 Tester	HAPENTEST	HI 98129 Combo	HA98331	HI 98331 Soil Tester

The Hanna pHep 4 tests for pH, while the HI 98129 tests for pH, Conductivity, TDS, and temperature. The HI 98331 is a direct soil tester that uses a probe to analyze Conductivity and temperature levels.

TESTER	RANGE	ACCURACY
pHep 4pH	0.0 to 14.0 pH	± 0.1 pH
HI 98129	pH: 0.00 to 14.00; EC: 0 to 3999 $\mu$ S/cm; TDS:0 to 2000 ppm; Temp: 0.0 to 60.0°C or 32.0 to 140.0°F	pH: ± 0.05; E/TDS ± 2% F.S.; Temperature: ± 0.5°C or ± 1°F
HI 98331	0.00 to 4.0 mS/cm and 0.0 to 50.0°C	Conductivity: ± 0.05 mS/c (0.00 to 2.00 mS/cm) ± 0.30 mS/c (2.00 to 4.00 mS/cm); Temp: ± 1°C

Buffer and conductivity solutions are available for all of our testers. Contact caSSco for more information.

### Agri-Meters

Myron L Agri-Meters are compact, light-weight, self-contained conductivity meters. Agri-Meters are ideal for checking fertilizer injection systems, irrigation systems, and a wide variety of water and soil samples without the time consuming delays of lab testing. Automatic temperature compensation-no thermometer or adjustments required. **DO NOT USE MERCURY OR ALKALINE BATTERIES** as voltage is low. Use only a 9-volt transistor battery.

The AG-6 meter checks for soil pH and salinity, water pH and salinity, correct fertilizer concentration, and automatic temperature compensation. Only small amounts of soil are needed for testing.

The AG-5 meter only checks for conductivity and salinity. Perfect for the budgeted grower. Accessories available include: a sturdy, foam-lined ABS carrying case, soil mixing vials, and ppm/alkalinity test.

ITEM #	DESCRIPTION
MYAG6PH	AG6 pH Meter
MYAG5	AG5 Meter
MYSTK	Soil Test Accessory Kit
MYSS	Standardizing Solution Qts
MYBUF7Q	pH 7 Buffer Qts.
MYBUF4Q	pH 4 Buffer Qts
MYPP	Porta Pak Carrying Case

Different companies offers a wide variety of products, ranging from pocket testers to portable or bench meters and from process instrumentation to test kits. With all these products to choose from, you can be certain to find the right solution for your specific application.

Call caSSco for all your testing needs.
