D Handled Tools

Round Shovel

Heavy-duty construction with an American made 29" fiberglass handle and tempered high carbon steel blade. Forward turned step for secure foot placement and steel collar for durability.

Garden Spade

Tempered steel blade and 29" American made fiberglass handle provide durability, while forward turned step gives added foot comfort. Steel collar around the top of blade to prevent socket from spreading.

Scoop Shovel

27" solidly made American fiberglass handle with an 18 3/4" naturally rustproof aluminum alloy blade attached with a steel collar.

Tempered high carbon steel blade with a turned step for greater foot comfort and steel collar that prevents socket from spreading. 29" American made fiberglass handle.

Square Shovel

Drain Spade

Heavy-duty 29" American made fiberglass handle with a high carbon steel blade attached with a steel collar to prevent the socket from spreading. Turned step for secure foot placement.

Spading Fork

11" tempered high carbon steel tines with a heavy-duty 30" American made fiberglass handle. Steel collar prevents socket from spreading.

Long Handled Tools

Round Shovel

American made heavy-duty 48" fiberglass handle. Tempered high carbon steel blade with a steel collar to prevent socket from spreading. Turned step for greater foot comfort.

Square Shovel

Steel collar prevents the socket from expanding and attaches the American made 48" fiberglass handles to the tempered high carbon steel blade. Turned step for secure footing.

Post Hole Digger

Tempered high carbon steel blades with steel collars to prevent sockets from spreading. Heavy-duty, made in America 48" fiberglass handles. Bolted pivot to ensure efficiency.

Garden Hoe

Heavy-duty 54" American made fiberglass handle with tempered high carbon steel blade that is attached by a forged head with a steel collar to prevent spreading.

Bow Rake

16 tempered high carbon tines welded to a steel collar to prevent spreading. American made 54" fiberglass handle.

Leaf Rake

54" oak handle with rubber cushioned head. A 24" steel head with spring to add flexibility without sacrificing strength is bolted on to the oak handle.

Pitch Fork

5 tempered high carbon steel tines are firmly welded to a steel collar to prevent the socket from spreading. Heavy-duty made in America 50" fiberglass handle.

Root Cutter

54" handle made from Ashwood with a forged head in two different sizes, 4" and 7". Heat-treated blades for the sharpest cutting edge for digging and cutting.

Contractor Series Sledgehammers

Long Handled Sledgehammer

This sledgehammer has an 8lb. high carbon steel, drop forged, temper heat treated head to draw hardness into the center of the head. The 34" American made fiberglass handle is built to take abuse while the epoxy resin assembly prevents the head from loosening from the handle.

ITEM # HT8455

Short Handled Sledgehammer

This 4lb. sledgehammer has an American made 15" fiberglass handle that is built to take on some tough jobs. An epoxy resin assembly prevents head from moving on the handle. The high carbon steel head is drop forged and temper heat treated to draw hardness into the center of head.

ITEM # HT7044

Contractor Series Pick Axes & Accessories

5lb Pick Axe

A pick axe with a 5lb head with a blade width of 4 3/8". Blade is drop forged and heat-treated, while the 36" handle is made from hard oak and is kiln dried.

ITEM # HT7002

2.5lb Pick Axe

A pick axe with a head weight of 2.5lb. 36" hard oak, kiln dried handle and a drop forged heat-treated head.

ITEM # HT6269

Pick Axe Handle

Replacement pick handle that is 36" in length, constructed from hard oak, and is kiln dried.

ITEM # HT6442

Contractor Series Axes

Single Bit Axe

A 3 1/2 lb Contractor Series axe with a heat-treated hardened blade and a 36" long contoured hickory handle.

ITEM # HT8638

Camper's Axe

Contractor series hatchet with a 1 1/2 lb heat-treated hardened blade and a 14-1/8" long hickory handle.

ITEM # HT8588

Miscellaneous Tools

Multi-Surface Push Broom

Heavy-duty push broom with a 60" long x 1-1/8" thick lacquered hardwood handle and a 1-1/16" thick and 24" long lacquered hardwood block with a heavy-duty broom brace for added strength and support. Stiff maroon synthetic center bristles and fine orange synthetic outer bristles are 3" long and solvent resistant.

ITEM # HT3373

Wheelbarrow

Heavy-duty 6 cubic foot capacity wheelbarrow with a heavy-duty steel tray with powder coating to resist rusting. Kempass hardwood handles to resist rotting while the wood cross stays under the tray for increased stability. Durable tubeless 4-ply knobby treaded tire provides great traction, while steel ball bearings will keep it rolling.

ITEM # HT7746
