

# LANDSCAPE FABRICS

## Weed Barrier

This weed barrier is approximately 5 oz. of heavy weight UV polypropylene per square yard, which provides for better weed control and virtually no tearing or puncturing for longer lasting ground cover. Since it is a woven, needle-punched fabric, this weed barrier is easy to cut or shape with common scissors and its textured surface helps keep stone or mulch in place. Weed barrier allows air, water and nutrients through to the plants' roots for unrestricted and better growth. It can be quickly and efficiently installed on large or small-scale projects. Weed barrier has colored stripes on 12" spacing for easy planting alignment.

ITEM #	ROLL SIZE
GWB3X250	3' x 250'
GWB4X250	4' x 250'
GWB5X250	5' x 250'
GWB6X250	6' x 250'
GWB8X250	8' x 250'
GWB12X250	12' x 250'

## Ground Staples

These metal staples are 1" wide and 6" long and can be used to secure ground cover, weed barriers and irrigation tubing to the soil.

ITEM #	DESCRIPTION
GC6PIN1M	6" x 1" Pins

## Erosion Blanket

Provides the ideal ground conditions for fast turf development. The topside of each blanket is covered with a biodegradable extruded plastic mesh. The blanket is made to be smolder resistant without chemical additives.

When properly installed they:

- Works into the soil to form a stable ground to promote root growth.
- Protects against sun burnout.
- Contain no weed seeds.
- Control temperature fluctuations to provide optimal growth levels.
- Breaks up raindrops to stop erosion, yet retains moisture.

ITEM #	SIZE
GCEROB	48 inches x 101.25 feet
GCEROB8	8 feet x 101.25 feet*
